

PARC News

Pioneer Amateur Radio Club of Fremont, Nebraska

Same Place, Same Station!

We're going Virtual again this month. And I imagine we'll be making some final decisions on how to hold Field Day and the Flea Market at this meeting. So be sure to stay tuned.

Check This Out If You Haven't Already

Thanks to Lance WN0L for letting me know about the attached NCJ article about Ed Gray W0SD, knowing that I knew Ed and some of the others in the article due to my living in South Dakota for 20 years from 1970 to 1990. Lance also knows many of them.

I think you will enjoy the article and viewing the antenna farm put together by Ed and his wife, Edith W0OE. Some people talk about doing things but Ed and Edith actually do them. A lot.

On their website at: <http://www.w0sd.com/> you can read more about their adventures. The DX-peditions page is at: <http://w0sd.com/dx/dx.htm>

Be sure to read about their 2007 trip to South America, which fortunately had a happy ending but could have gone the other way.

I have always told people visiting South Dakota there are two places you need to be at either sunrise or sunset. The first is the Badlands. The second is on I-90 by the W0SD antenna farm. It is located just south of I-90 and west of the Salem-Highway 81 exit. Of course, Hams get more excited about the second location than other people.

Pictures of the antenna farm are in the article. For a view from above, obtain their address from: <http://www.wm7d.net/> and paste it into Google maps: <https://www.google.com/maps/>

Incidentally, one of the benefits of ARRL membership is that you can now read four ARRL magazines, including NCJ, on-line on the ARRL website.

Enjoy. Dave T. W0NRW

PIONEER AMATEUR RADIO CLUB MINUTES FOR APRIL 23, 2020

The Pioneer Amateur Radio Club On-Air Meeting for April 23, 2020, met on the 146.67 MHz KD0EFC Fremont repeater at 7 PM. Net control for the meeting was Steve Narans, WB0VNF. 24 people checked into the meeting, which was then turned over to President Tony Renze, K0OMH. Tony opened the meeting by thanking Darlene Hoffman, N0LOP for publishing the *PARC News*, and Lance Hoffman, WN0L for coordinating the return of the PARC website, which was not available for several days. He then read the *Radio Amateur's Code*, which was written by Paul Segal, W9EEA in 1928. See: <http://www.arrl.org/amateur-code>

HOSPITALITY: Mel Cunningham, K0VLA relayed a report from Sharon Martens, KB0TVB that she had send a card to Cynda McCabe, wife of Mack McCabe, W0UVQ, due to her recent illness.

EDUCATION: Jane Mehaffey, KB0ZUN reported that there is a good article in the March *CQ Magazine* on page 37 concerning attracting young people to amateur radio.

FIELD DAY: Scheduled for Izaak Walton League Park in Fremont on June 27-28, 2020, Don Renze, K0OM Chairman. Don reported that plans are still up in the air due to Norovirus restrictions, although we could probably make it work. The Pot Luck meal is definitely out. Some clubs are considering having members operate from home. K0VLA read a paragraph from the *ARRL Letter*, which suggests that Field Day offers a chance to be creative. See: <http://www.arrl.org/arrlletter?issue=2020-04-23>

FLEA MARKET: Scheduled for St. Charles Parish in North Bend on July 11, 2020, with Rich Mehaffey, KB0ARZ and Jane Mehaffey, KB0ZUN as Chairpersons. Rich reported that the event is on hold pending developments in Norovirus restrictions. He has not sent in the ARRL notification. He could mail out notifications at the last minute if the event is able to be held.

PICNIC: Scheduled for 530 PM on Sunday, September 27, 2020 at the Theophilus home, with Dave Theophilus, W0NRW and Sharon Martens, KB0TVB as Chairpersons.

CHRISTMAS PARTY: To be announced, with Linda Kirchmann, W0ZIP and Jane Mehaffey, KB0ZUN as Chairpersons. Jim Muegge, W0JBM had previously offered to obtain information from the Fire Barn in Waterloo as a possible location for the party.

NET MANAGER: K0VLA has 5 Net Control Operators. He has the next 3 weeks covered and then will contact people to sign up for additional sessions.

PUBLICITY: W0NRW said no meeting notices are being published by the *Fremont Tribune* as most meetings are canceled. When I contacted them, they did give us some extra publicity by printing a small item about the club.

OLD BUSINESS: Wesley Payne, KE0WHA asked about PARC's 80th birthday plans. W0NRW commented that the birthday was going to be celebrated at the Flea Market. K0OMH said that with those plans on hold, we may have to find another date. WB0VNF suggested that he and W0NRW meet with the *Fremont Tribune* later this year about our 80th anniversary.

NEW BUSINESS: WB0VNF said that there are 4 people in the area who are ready to take the license exams, but most test sessions are canceled. He is looking into the possibility of holding a test session in order to accommodate them. KE0WHA reported he is working on a portable/mobile station. Jack Powley, WA0SAQ suggested that the repeater timers be turned off during the meetings.

ARES: WB0VNF reported that the ARES committee had met twice via ZOOM. There are Emergency Management plans in place if they are needed during the current pandemic, but our ARES involvement would probably be minimal. The Communications Trailer that is owned by Dodge County and stored at the airport, had an evaluation of all the trailer components. PARC paid for those evaluations, which Steve will now submit in the form of a grant request to pay for the upgrades and other improvements.

ADJOURN: The meeting was adjourned at 738 PM.

NEXT MEETING: Scheduled for May 28 in a format to be determined. Respectfully submitted, Dave Theophilus, W0NRW

Instructions For Those Of Us Using The N3FJP Field Day Logging Software

For those of us that have the N3FJP
Field Day logging software

Since some of us will be operating
from home this year I thought it might
be fun to share our field day efforts.

N3FJP field day logger allows us to do
that

These instructions are for setting up
the N3FJP field day logger to upload a
quick status report to a web site

so folks can see how everyone is doing
during field day.

It will upload a status report every 3
minutes or however you set it to keep
things up to date.

To look at the various reports type
<donrenze.com> into your web browser
address line.

When the site comes up, click on the
various call signs to see reports from
the participating stations.

There is some test data on the web
site now so you can see how it looks.
Try it.

N3FJP Status Uploader setup instru-
tions

Once the N3FJP logging program is up
and running.....

Goto the Settings Dropdown menu then
Select Web upload Contest Status (near
the botton)

Wherever you see K00M in the example,
change it to your own callsign - 2
changes needed.

1-The top Item (Web Page Title)

2-File Name on website: instead of
K00M.html use <Yourcall.html> The .html
part is important

Message -change to whatever you want

****Copy and Paste the following item****

FTP URL of your hosting site: ->
ftp://home150968060.lan1-data.host/

Send an email to (don@donrenze.com) so I can
establish your account and I will send you a
name and password entry

Your hosting site user name: (from my
email)

Your Hosting site password: (from my
email) This is case sensitive

Once you have things set up, enter some dum-
my data into the log something like AA1AAA.

Then hit the "Upload Now" button and hope-
fully you will not see an error message.

If you do, recheck your setup.

If that does not work, drop me an email.

If no error message, go to "donrenze.com"
with your browser to see if it worked.

Your call sign should be on the web page.

Click on your call to see your report.

If you are planning to participate, please
set this up well in advance of field day.

PS: You can also view the web page without
having the software.

The field day software is available from
N3FJP for \$8.99 and you will receive

the activation code and then you can use it
nearly forever including any new updates.

PARC Officers & Chairpeople
